PTPE UPDATE: An option to lease agreement with the [redacted] partnership was signed on 31 July 1986. This agreement provides consideration to the partnership over the next two months during which time they will take appropriate steps to resolve FOCI concerns, remove the property from the commercial market, and enter into good faith negotiations with the government to execute a long-term lease arrangement. Design efforts are ongoing and hopefully the first 38,000 square feet segment [redacted] will be available for government use early in fiscal year 1987. [redacted]

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

e. Supply Management Branch, Supply Division, is reviewing slow-moving stocked items that have had little or no demand for two years to determine whether the items are obsolete or no longer required. The largest percentage of the items under review was stocked to satisfy Office of Communications requirements. Users are being provided slow-moving status runs to determine if the items can be removed from inventory. There are approximately 2,000 line items valued at \$6 million dollars under review.
